

Activating Quadoa Optical CAD Cloud License

1. Install **Quadoa Optical CAD**

Download Link:

<https://www.quadoa.com/download>

2. Install the **Sentinel HASP/LDK Runtime Installer** on the computer where the Quadoa cloud license should be activated.

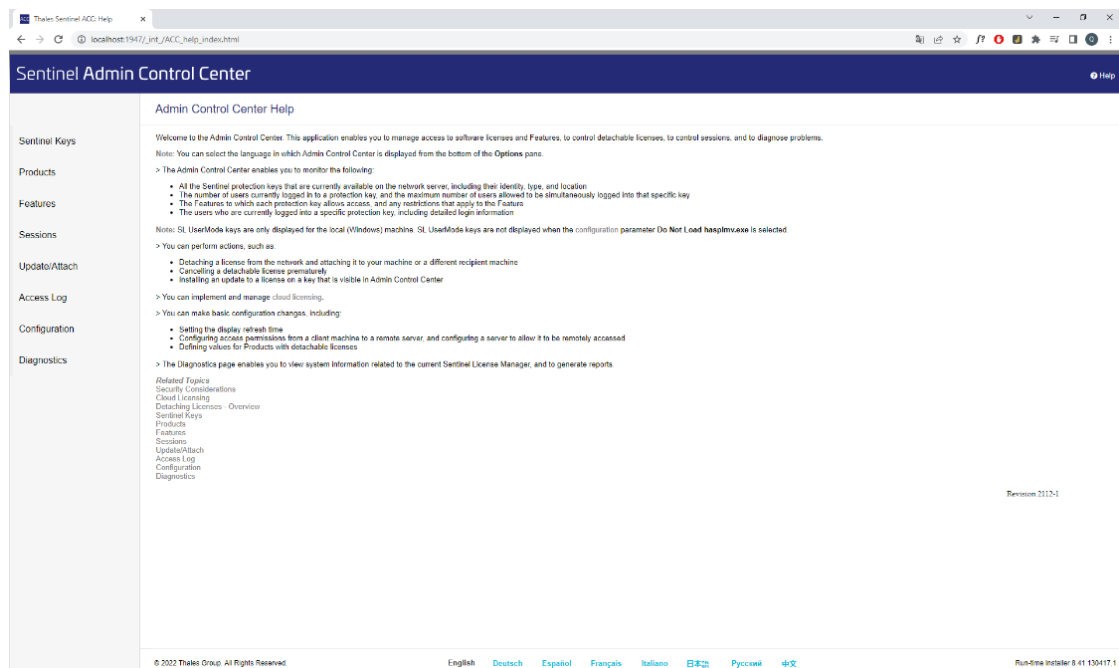

Download Link:

<https://www.quadoa.com/download>

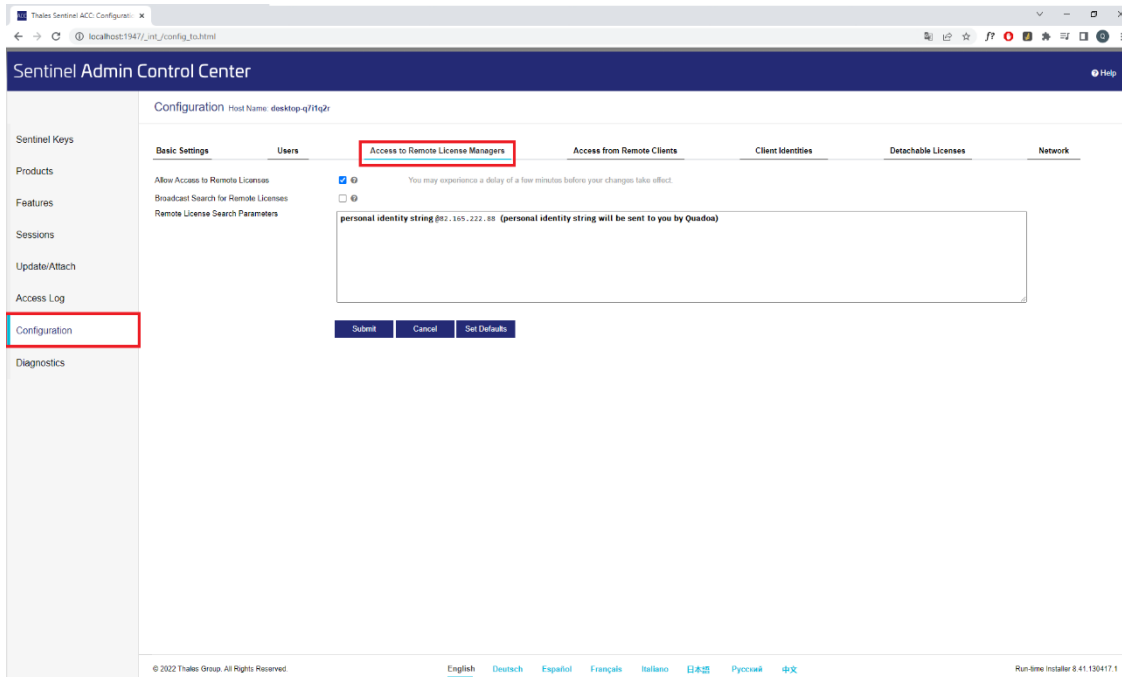

3. Open the **Sentinel Admin Control Center** using the address in your web browser

<http://localhost:1947/>

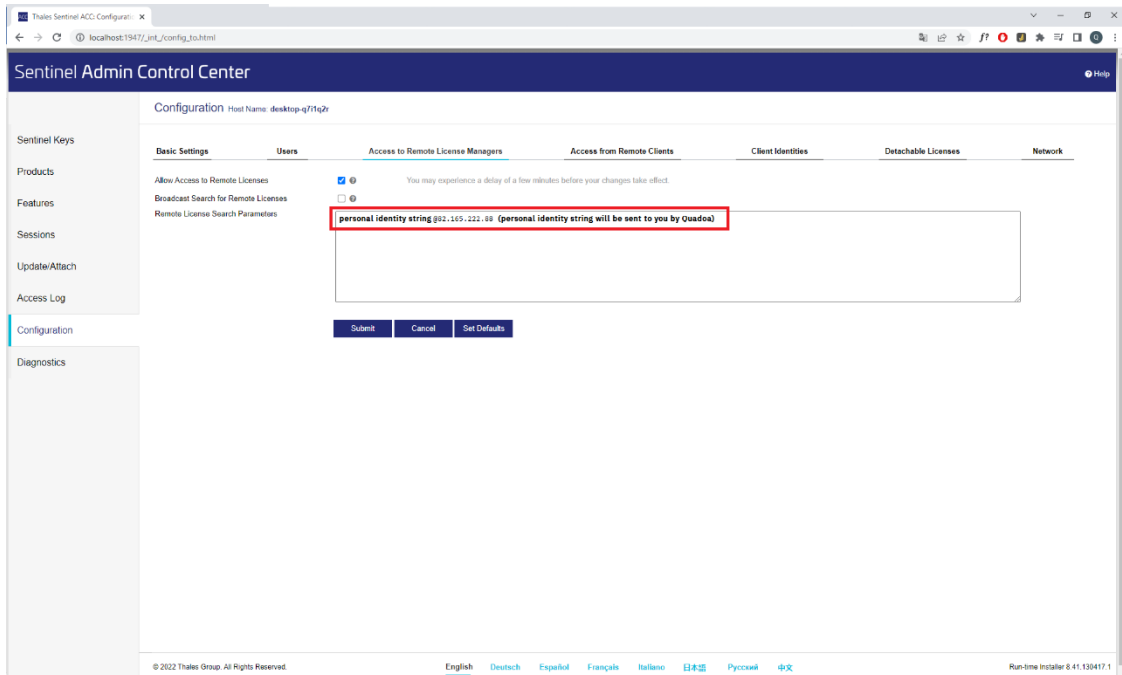

The Sentinel Admin Control Center will launch

- Switch to **Configuration** and go to the **Access to Remote License Managers** Tab.

- Insert the **personal identity string** which was sent to you by Quadoa.

- Click on **Submit**
- Your cloud license will be activated within few minutes. Afterwards you should have access to Quadoa Optical CAD. An internet connection is required at all times.
Privacy Data Information: All personal data is stored on your personal computer. Only the Quadoa license key is stored on the cloud server.
